DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Kudou et al., 5,173,626.

Kudou et al., 5,173,626, discloses in Fig. 4 a latch circuit comprising:
6 inverters 26-31 **connected to one another at nodes in a loop;**
a plurality of different input terminals D, 0, 0, E, E and S respectively connected to different nodes which are the output nodes of multiplexers 23-25; wherein: at least one of data input D and enable inputs E and E being used for normal operation; **at least another of different test input terminals T and T being used for test operation;** and a plurality of output terminals connected to different output nodes at the outputs of inverters 27 and 31.

Allowable Subject Matter

3. Claims 5-11 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The latch circuit connected as recited in claims 5-11 has not been found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
